## THE VARIETIES.

**A Hyperborean State.**—Notwithstanding the general belief in the chimerical character of the project for the erection of a new Commonwealth, to be called Superior, it seems to be steadily assuming definite shape and importance. The Legislatures of Wisconsin and Michigan have approved of and agreed to the surrender of their respective shares of the territory required for the new State. The matter will probably come before the next Congress, as a memorial on the subject is to be forwarded to Washington. This inchoate State will comprise all the American territory bordering Lake Superior in Michigan, Wisconsin, and Minnesota. It will include all the upper peninsula of Michigan, with its immense mineral resources, the northern part of Wisconsin, and the northern corner of Minnesota. Some of the Wisconsin papers are so enthusiastic in favor of the project as to propose to cede all the northern part of the State from the forty-fifth parallel up. They say, very truly, that, if this territory were to be erected into a State, it would result in building up a great commercial emporium on the shores of the lake; that the present capitals of Michigan and Wisconsin are entirely too far from the remote settlers of the North, who, as they are thus shut up by themselves for four months in the year, should be allowed the privilege of adapting their political institutions to their circumstances. At present the territory referred to has not sufficient population to form a State, as it numbers only some 28,000 souls; but it would be proper enough to erect it into a national territory, to be left to grow at its leisure into adult proportions.

One volume of Lamartine's "Familiar Course of Literature" has already been published, and, in the opinion of competent judges, the work bids fair to be the best general review of the literature of all nations ever written.

**Ambition to be "The Editor."**—Monsieur Millaud, the wealthy intellectual aspirant, who has just paid one hundred and sixty thousand dollars to M. Girardin, to take his place as Editor-in-Chief of the first daily paper in Paris, is said to have first soared so high as to make an offer for the London Times. To his inquiries as to the price, he received by telegraph the following reply: "Sir, when you have come to anchor in the Thames with three ships laden heavily with gold, we shall be ready to talk with you."

The old gentleman who thought he could stop a rat hole with toasted cheese has just been overtaken by another hallucination, viz: That young women can be kept from knowing "what's what," by sending them to boarding-school.

**A Curiosity.**—There is a thrifty, well-grown shoat, said to be about six months old, belonging to J. Salmon, of Patrick co., Virginia, which has eight fair, distinct feet on which it kneels. Its legs seem to commence a fork about the knee-joint, and continue to widen until they get near the feet, and then finally separate. The hog walks well, only a little clumsy.

**A Paragraph about Royalty.**—The Empress of Austria is again "interesting." The Sultan of Turkey has given it to be understood that he wishes no longer to be addressed officially as the Sublime Porte, but as "His Highness, the Sultan." We shall endeavor to recollect. Queen Victoria expects to increase the Royal family in early spring.

Mr. Appleton, who has been called to edit the Washington Union for Mr. Buchanan's administration, was formerly an abolitionist.

The Danville (Va.) Register states that a family, consisting of an old man, his wife, and daughter, were dug out of a snow drift around their cabin, on the opposite side of the river from that place, on Monday morning of last week. When the snow was removed, and an entrance to the cabin effected, the old man was found sitting on a stool, venting his excretions on snow-storms and landlords. When interrogated as to the creature comforts within his immediate reach, he said he had no fire or wood or no provisions, but that was a small matter when compared with his total destitution of "spirits."

**Snow Birds afraid of the Cold.**—N. P. Willis has a flock of pet snow birds, of which he writes during the late cold snap: "I observed one thing, yesterday, that may interest the lovers of natural history. The cold was so severe that the snow birds preferred hunger to encountering it—for the first time this winter not stirring from their nests all day. I know it by the little flock I feed so carefully on the piazza roof, under my study window. With the 'regular board' they have grown so singularly fat as to look unlike any other snow birds that I see about the country (brighter-feathered as well as rounder-shaped), and they have courage and voracity, I know. But their crumbs were untouched that cold day. They came this morning, as usual, however, and made up for their *just* with a 'sweet' feed."

God has written on the flowers that sweeten the air—on the breeze that rocks the flowers upon the stem—upon the rain drop that refreshes the sprig of moss that lifts its head in the desert—upon its deep chambers—upon every penciled sheet that sleeps in the cavern of the deep, no less than upon the mighty sun that warms and cheers millions of creatures which live in its light—upon all his works he has written, "None liveth for himself."

**Thefts from Railroads.**—The Central Ohio Railroad has been suffering from thefts of baggage and property for some time back. We now learn from the Zanesville papers that an individual named James Pickrell, residing at Black Island, has been arrested, and, having turned State's evidence, gave information of a large number of others, scattered all along the line of the road. Of these, seventeen have already been arrested, and most of them lodged in the Franklin county jail. With few exceptions they were employees of the road, in inferior capacities, and hence the facility with which the gang took goods from the cars. Their names we have not learned. The work is still going on, and many more arrests will be made. As we learn, they formed a regularly organized company. It is stated that within the past year the road has paid over \$3,000 for lost property. Anything was stolen, dry goods, hardware, oysters, &c.

**The Highest Waterfall in the World.**—Some writers having described a visit to "Voringsfos," a waterfall in Norway, and claimed for it the greatest plunge in the world, the editor of Hutchins' Magazine, a California periodical, says: "The astonishing height of the above, although situated in one of the most romantic and mountainous countries of the old world, cannot compare with those of our own California, which surround the magnificent valley of the Zo-Hamite. One of the falls is thirteen times the height of Niagara, that being 155 feet, while the Zo-Hamite Falls is over 2,000 feet."

**"Haw, Buck."**—The Grand Rapids Eagle mentions an unusual case of marrying which took place last week in Caledonia, Kent county. The parties were on their return from meeting or a neighbor's, when it was proposed that the knot should be tied instant. Whereupon the sleigh (drawn by oxen)

was stopped, the parties stood up therein, and a minister promptly did the job. The driver said, "haw, buck," and the couple were soon landed at home man and wife.

We have somewhere read of a traveler who stood one day beside the cages of some birds, that, posed for sale, ruffled their sunny plumage on the wires and struggled to be free. A way-worn and sun-browned man, like one returned from foreign lands, he looked wistfully and sadly on these captives, till tears started in his eye, and, turning round on their owner, he asked the price of one, paid it in strange gold, and opening the cage, set the prisoner free, and thus he did with captive after captive, till every bird was away, soaring to the skies and singing on the wings of liberty. The crowd started and stood amazed; they thought him mad, till, to the question of their curiosity, he replied:—"I was once myself a captive; I know the sweets of liberty."

A medical gentleman defines winking to be an "affection of the eye."

The Yankee who was "lying at the point of death" whittled it off with his jack-knife and is now recovering.

We learn from Washington that Mr. Horace Greeley of the Tribune has been subpoenaed to appear before the Corruption Committee of the House of Representatives. Judge Striker, of New York, testified before the Committee that Greeley received a draft for a thousand dollars, and Reverdy Johnson one for fifteen hundred dollars, for services in the Des Moines Railroad affair.

George Carstensen, architect of the Crystal Palace, New York, died at Copenhagen on the 4th of January. He commenced the publication of a Sunday newspaper at Copenhagen, and died the same day that the first number was issued.

GOOD SENSE.—We look upon the following paragraph, from the Winchester Virginian, as one of the most sensible we have recently seen in a newspaper. Would that other of the editor's party friends had always so thought, or could now be induced so to think:

It is not once, nor twice, nor half a dozen times, only, that we have expressed the conviction that Southern conventions are Southern humbugs, as truly as conventions of Millerites, Spiritualists, Mainelawites, Fourierites, Women's Rights Advocates, &c., are Northern humbugs. The best place to hold a Southern convention is the stable-yard or the cornfield, and it should be called to order with the day-break horn. Every farmer should hold one himself. If every individual does his own part toward the introduction and extension of intelligent improvement, in agriculture, trade, and manufactures, those imposing assemblages annually drawn together by the agency of free passes on railroads and the prospect of a week's feasting will come to be viewed as cockneys view the Lord Mayor's banquet. Just in proportion as the South is made stronger and richer will we forget that there is a South. We consider it one of the healthiest signs of the times that this feeling is fast taking possession of our people.

**SINGULAR NAMES.**—The following record of American nomenclature is given in the memorials of Wm. Shattuck, lately published at Boston:

Simon Shattuck of Fitchburg named three sons Shadrach, Meshach, and Abednego; Abel Shattuck of Coleraine named the male of a pair of twins Truman and the female Traly; this Truman Shattuck named a girl Emeline Truly; Moses Shattuck of Brooklyn named four sons, since 1800, Asia, Africa, Europe, and America. Other odd names in the volume are Al, Phillisasse, Seraph, Sayneda, Sarepta, Sarada, and Thishy Athalia.

Mr. Shattuck, in his remarks upon some of these names, says:

Singularity of taste is not peculiar to our family; we once had under our instruction in Detroit a family, whose sons were named One Stickney, Two Stickney, Three Stickney, and whose daughters were named First Stickney, Second Stickney, and so on. The three elder children of a family nearer home were named Joseph, And, Another, and it has been supposed that, should they have any more, they might have named them Also, Moreover, Nevertheless, and Notwithstanding. Another family actually named their child Finis, supposing that it was their last; but they happened afterwards to have a daughter and two sons whom they called Addenda, Appendix, and Supplement.

**FURTHER FROM MEXICO.**—The country is quieter than it has ever been since the close of the war with the United States. The rebellious spirit of the country is, however, giving considerable trouble to the government, and some of their number have been summarily dealt with.

The value of the properties formerly belonging to the church, which have been sold lately, by virtue of the law of disamortization of June 25, 1856, amounts to \$18,898,332.00. President Comofort is resolved not to shrink from the responsibilities, vexations, and taunts attendant upon the execution of this law.

The Trait d'Union of the 12th of Jan. mentions a rumor that the Apostolic Nuncio had received orders by the last packet to ask for his passports and return home. "If this be true," says the Monitor of the 13th, "we applaud it, and hope that the Government will make haste and expedite these passports."

The Monitor of the 13th says that the insurgents had finally left San Luis, and that the revolution was at an end.

Besides \$240,000, which they got by robbing the conductors, they received \$130,000 in the shape of forced loans from the merchants.

A new anesthetic agent has been recently brought into use in London by Dr. S. J. Pickers, an amylene or amylene. It is made by distilling a mixture of oil with chloride of zinc. The result of the distillation is a very light and volatile liquid, being only two-thirds as heavy as water, and boiling at 102 deg. Fahr. Its composition is ten equivalents of carbon and ten of hydrogen. It belongs to the amylene series, and is isomeric with olefiant gas. It was discovered by Cahours, a French chemist, about fifteen years since. The vapor of amylene, when inhaled, is much less pungent than that of chloroform, although the patient breathes it in much larger quantity. The persons to whom it has been administered have been subjected to severe surgical or dental operations with an entire stupor and relaxation of the muscles was produced. They seemed in a state of semi-consciousness during the greater part of the time, recovered very promptly from its effects, and were not affected by sickness. It has been administered in the London hospitals in some twenty cases with the best effects. If, on further trial, it should sustain the reputation which it has thus far acquired, it will undoubtedly take the place of chloroform, which is considered by many a dangerous anesthetic.

**Respiratory Surface of the Lungs.**—The number of air cells in the human lungs amount to no less than six hundred millions. According to Dr. Hales the diameter of each of these may be reckoned at the one-hundredth of an inch; while, according to the more recent researches of Prof. Weber, the diameters vary between the seventieth and two hundredth of an inch. Now, estimating the internal surface of a single cell as about equal to that of a hollow globe of internal diameter, then by adopting the measurement of Hales, we find that six hundred million such cells would possess collectively a surface of no less than one hundred and forty-five square yards; but by basing our calculations on the opinions, remember, which the science world receive as facts, we arrive at the still more astounding conclusion, that the human lungs possess upwards of 166 square yards of respiratory surface, every single point of which is in constant and immediate contact with the atmosphere inspired. It will be useful, then, to imprint on the memory that, whether we breathe pure or putrid air, the air inspired is ever in immediate contact with an extent of vital surface ample enough for the erection of two or three large houses.

## FOREIGN NEWS BY THE AFRICA.

At the adjourned hearing in the case of the difficulty on board the ship J. L. Bogart, Williams and Hyatt (colored), two of three prisoners of the crew, were discharged, and Jones (also colored) was liberated on bail. Peter Campbell, the second mate, is remanded for a week. Sympathy in Liverpool is in favor of the negroes in this case.

An official account from the Philippine Islands states that fifteen thousand houses were destroyed by a hurricane. Considerable damage was also done at Manila.

(From the Liverpool Times of Jan. 24.)

A good deal of anxiety prevails at the present moment in the manufacturing districts respecting the prospects of the cotton trade. The rapid rise in the price of the article, and the difficulty which the Southern States of the North American Confederation experience in supplying the demands in England, on the European continent, and for the United States themselves, impart to this subject more than ordinary interest. This question has engaged a good deal of attention at various times during the last few years, and numerous projects have been set on foot to procure from tropical countries in different parts of the world an additional stock of the staple. At one time it was believed that British India might be made to furnish large additional quantities of cotton; but this idea seems now to be all but abandoned. It is found that the aridity of the climate in our East Indian possessions is unfavorable to the production of cotton, and that, while in the United States the produce per acre is from four to five hundred pounds, in India it only ranges from fifty to a hundred pounds per acre, so that the cheapness of the labor in our own possessions is more than counterbalanced by the paucity of the produce. In this dilemma, attention is again turned to the eastern part of Africa, and a Manchester gentleman, named Clegg, has recently furnished some interesting information on the subject.

**Kidnaping Black Seamen.**—The scenes of outrage and bloodshed which frequently occur on the Mersey in the case of outgoing vessels demand prompt attention, and, if the law as it exists at present is insufficient to suppress the evil, the remedy is easy—the law must be strengthened. These painful outbreaks are confined for the most part to vessels sailing to and from the United States.

It is asserted in well informed quarters that there is a systematic traffic carried on in this port by some of the American captains, who hire black seamen under false pretences, and then sell them as slaves in the Southern States of the Union. The indignation evoked by what has transpired on board the James L. Bogart, will, we hope, crush this infamy in all future time.

(From the Liverpool Mail.)

It is high time that the American authorities, and American shipowners, should bestir themselves, and endeavor to put a stop to a state of things which is as injurious to the efficiency of their mercantile marine as it is discredit to the national character. None but the very scum of the service will have anything to do with ships where an appeal from the brute and unmanly violence of one officer elicits no other response than a shot from the revolver of another.

**France.**—The Constitutional mentions that the merchants of Nantes have signed a petition to the Emperor, appealing to the high and paternal solicitude of his Majesty in favor of the numerous French citizens at the destruction of Greytown, by order of the Government of the United States, on the 13th of July, 1854. The Chamber of Commerce of Orleans, and the principal bankers, manufacturers, and merchants of that town had previously presented a petition to the same effect. Their example has been followed by the merchants of Paris, Lyons, and Marseilles, who have suffered serious losses by the bombardment of Greytown.

The petition which Verger has addressed to the Emperor fills four pages, and displays some literary ability, but is humble and suppliant in tone. It, however, shows that the petitioner considers himself different from the rest of mankind, and believes in his own infallibility. He declares in the course of it that Christianity requires regeneration, and that the inferior clergy ought to be enfranchised from the yoke of the higher. He declares, too, that he looks on himself as the Peter the Hermit of a new crusade, and that, being determined to announce his mission by a coup d'etat, he had selected for victim the highest dignitary of the church.

**Russia.**—A letter from St. Petersburg, of the 8th, in the Journal des Debats, says:—"The news of the attack on Canton by the English fleet has produced a considerable sensation here. It appears certain that depots of goods belonging to Russian merchants have been burnt, and that their loss of property has been considerable. This act, which is perfectly unjustifiable, and for which no serious motive can be assigned, is regarded here as the prelude to the conquest which the English propose to themselves in the island of Chusan. The Russian Government is perfectly aware of the intentions of the English, and of all the plans which they meditate in China, and for which purpose they have been for some years past very quietly increasing the naval force on that station, until they have now a very formidable fleet there. All the intrigues carried on by the English agents, with a view to ruin the important commercial relations which the Russian merchants carry on with China, through the town of Kiachta, are well known at St. Petersburg."

At St. Petersburg the Czsr is engaged in the erection of the largest forges, iron ship-building yards, and engine factories in the world, on one of the principal quays, in the government part of the city. The operations are being conducted with the greatest secrecy and despatch. The works are being built by English mechanics, from one of whom, just returned to England, this information is derived.

**Turkish Cruelties to Christians.**—Belgrade, Jan. 8. According to letters from Widdin, the old Turkish judicial customs against the rayahs (Christians) are being re-established in all their rigor along the frontier of Bulgaria. A commissioner is, besides, occupied in making inspections respecting the knets (local judges), and he dismisses all such as do not appear to him to be well disposed to the Turks, and he sends them to Widdin, where they are prosecuted on some pretext or other. Another commissioner, sent from Constantinople, and who is also making inspections in Bulgaria, has ordered that all the young women and girls of the villages through which he passes should go forth to meet him; and, as the knet of the village of Staikouze sent young men instead of females, the commissioner had him bastinadoed. A number of the inhabitants of this village, fearing the cruelty of the commissioner, wanted to fly into Serbia, but could not be admitted owing to their having no passports. The severity of the Turkish authorities in Bulgaria is greater in the frontier districts than in the centre; but it is certain that there exists great agitation in all the provinces.—Augsburg Gazette.

**FRIGHTFUL RIDE.**—At Franklin, in this county, the Baltimore and Ohio Railroad passes along the side of a precipitous mountain. At the base, Crabtree creek, a wild mountain stream, runs foaming along over its rocky bed. From the railroad to the creek, a distance of about seventy-five yards, there is a deep precipice rising up at an angle of about forty-five degrees. On Monday night one of the locomotives attached to a burden train, just as it reached this point, broke a flange, and detaching itself from the train ran down this precipice, carrying with it the engineer and fireman. Neither of them was able to get from the locomotive until it reached the creek, where it now stands fair and square upon the wheels, without being materially injured. But what is most singular neither the engineer nor fireman received the slightest harm.

(Baltimore American.)

Anais Toussaint, daughter of a shoemaker of St. Sauver, district of Quebec, was tried at the last criminal term at Quebec, for the poisoning of her husband, Joseph Bisson, aged twenty-four years. It appears that the father of the unhappy woman would not allow her to marry one Frichotte, the object of her choice; and that, though she afterwards acceded to her father's wishes to marry Bisson, she soon after determined to get rid of him by administering arsenic, which she obtained from the doctor, on the pretence that she wanted rat poison. The trial, which began on the 27th January, was only concluded on the 30th. A great number of witnesses were heard on both sides. The jury rendered a verdict of guilty.—Montreal Pilot.

**THE GREAT RUSSIAN REMEDY.**—Pro Bono Publico.—"Every mother should have a box in the house handy in case of accidents to the children." REDDING'S RUSSIA SALVE is a Boston remedy of thirty years' standing, and is recommended by physicians. It is a sure and speedy cure for Burns, Piles, Boils, Corns, Felons, Chilblains, and Old Sores of every kind; for Fever, Sore, Ulcers, Itch, Scald Head, Nettle Rash, Bunions, Sore Nipples (recommended by nurses), Whitlows, Sties, Eruptions, Flea Bites, Spider Stings, Frozen Limbs, Salt Rheum, Scurvy, Sore and Cracked Lips, Sore Nose, Warts, and Fleshy Wounds. It is a most valuable remedy and cure, which can be testified to by thousands who have used it in the city of Boston and vicinity for the last thirty years. In no instance will this Salve do an injury, or interfere with a physician's prescriptions. It is made from the purest materials, from a recipe brought from Russia—of articles growing in that country—and the proprietors have letters from all classes, clergymen, physicians, sea captains, nurses, and others who have used it themselves, and recommended it to others.

Redding's Russia Salve is put in large tin boxes, stamped on the cover with a picture of a horse and a disarmed soldier, which picture is also engraved on the wrapper.

Price 25 cents a box. Redding & Co., proprietors. R. A. Robinson and Bell, Talbott, & Co., agents for Louisville. Scribner & Devel, agents for New Albany. apr2 j&bdeed&weowly

**High School.** There will be an Examination of the Pupils in the Academic Department of the Public Schools on Wednesday, Thursday, and Friday nights of this week at seven o'clock, in the College Building, at the corner of Ninth and Chestnut streets. The citizens generally are invited to attend. JOHN P. SMITH, Agent of Public Schools.

**Dr. King's Dispensary.** DR. A. KING, a practitioner of New York for the last First and Second, nearly opposite the Graham House, Louisville, for the treatment of Private Diseases, such as Gonorrhea, Syphilis, and all diseases of the skin and other derangements growing out of neglect or imperfect cure. His long experience and success enable him to act with confidence. All those who may confide their cases to him may rest assured of having the disease effectually cured and every vestige of the difficulties perfectly eradicated from their constitutions. STRICTURES of old or recent date effectually cured in a few days by an operation which causes no pain. Where a stricture exists, general derangement of the whole constitution must ensue, a continuance of which will bring on a train of symptoms, which are dreadfully and will undermine the constitution and cause premature old age. SEMINAL WEAKNESS.—Particular attention will be given to this disease and all the consequences growing out of it, both in the male and female, by the destructive habits of inconsiderate youth and excessive indulgence of the passions, which undermine the constitution, rendering the subject unfit for either business or society, and causing premature old age. Persons abroad, by writing and stating their case, with a fee enclosed (post-paid), can have the medicine sent to their address, with necessary directions for using the same. The strictest secrecy observed in all cases. 11 j&b&jf (filling hours) the Dispensary from 9 o'clock in the morning to 5 o'clock in the evening. 19 j&b&jf

The following is a specimen of a thousand testimonials, voluntarily offered during the last week, in favor of Porter's Oriental Life Liniment:

**Dr. R. D. Porter.**—Sir: Having been induced to purchase several bottles of your Oriental Life Liniment, by the many valuable recipes which you publish, I was persuaded to give it a trial in frost-bites and fresh cuts and wounds, which I found essentially beneficial. My brother has also tried it in diseases of horses—one case where the left hip was shrinking away, producing stiffness of the entire limb, rendering the animal almost useless—has used but one bottle and part of a second, and assured me it had almost effected a cure. I have no hesitancy in recommending it, and believe it is a valuable remedy in the diseases attending man or beast, for which you offer it to the public.

WM. D. REID, Physician, Jefferson County, Ky., Feb. 2, 1857. 13 j&b&w

We are informed that fifteen thousand bottles of Oriental Life Liniment have been sold at retail in this city during the present winter.

**GRAND CONCERT THIS EVENING.**—We take especial pleasure in announcing for this evening one of the most charming entertainments of the whole season, the Grand Complimentary Benefit to Sig. A. M. Hernandez, the great guitarist. From the fame of Hernandez and the names of the exceedingly fine vocalists who are to assist him, and whose names are announced in the advertisement, the community will expect much, and their expectations can scarcely be raised too high. We have no idea that Hernandez, as a guitarist, has a superior, if he has an equal, in this country. The guitar in his hands seems a miracle of melody.

**A NEW PROTECTION AGAINST LIGHTNING.**—Mr. David Munson, the patentee of the new *Tubular Lightning Rod with Spiral Flanges*, is at present in Louisville for the purpose of disposing of State rights. He may be found at the Louisville Hotel, where he invites all who are interested to call and examine this new and very useful patent.

The advantages of this conductor are in the material and form. The rapid oxidation of iron diminishes continually the protective power of the iron rod, and for this reason Mr. Munson has adopted copper as the material because it is less liable to rust, is a better conductor and will last longer than iron. The form is a hollow cylinder with spiral flanges. Thus a much greater surface is presented for the control of the passage of the electric fluid than in a solid rod. It is surmounted with several points of plated metal which present an accumulation of attractions for the electricity. It is much more ornamental than anything of the kind we have seen and can be put up for very little more cost than the common iron rod. It is a cheap, superior, and ornamental conductor. Mr. Munson is a native of Kentucky, but for some time past has been a resident of Indianapolis. His rod has already been awarded premiums as the best lightning rod at the Ohio State fair, the Indiana State fair, and by the Franklin Institute at Philadelphia.

**THE EXHIBITION TO-NIGHT.**—We trust that all of our citizens who feel an interest in education, and all should, will attend the exhibition of the pupils of the High School to-night. The exercises will be very interesting.

COAL! COAL! WE have completed arrangements to secure regular supplies of Coal by the Jeffersonville Railroad until the opening of navigation. Our prices, by the single cart-load, are as follows: Clay County, 45 cents per bushel; Indiana Square Lump, 45 do do do; Evansville, 45 do do do; In all cases where more than one load is wanted, we wish one or two days' notice, as the supply is regulated by telegraph according to the demand, and we do not intend to have any left over. W. & H. CHITTENDEN, 70 Third street, opposite the Post-office.

MEDICAL BAGS, A FINE ASSORTMENT. Also TRUNKS, CARPET BAGS, and VALISES, T. C. PROALS, Jan 30 & 31st 6m 70 Third street.

To my Customers. In consequence of the late fire on the 1st inst. by which my store-house and a greater part of my stock were burned, I was compelled to seek another location. I therefore beg leave to inform my friends and customers that I have removed to the premises as heretofore at my new location in Bustard's building, No. 44 Market street, near corner Fourth, north side. My stock of

Gents' and Ladies' Shoes and Boots For the fall and winter wear will be complete in a very few days. I shall still endeavor to merit the patronage in my new location heretofore so generally bestowed by the citizens of Louisville and surrounding country. SAM'L P. SECOR, 417 1/2 j&b

COAL! COAL! COAL! THE subscriber, thankful for the patronage extended to him by his friends and the public generally, respectfully informs them that he has just opened a COAL YARD and OFFICE, on the CORNER OF NINTH AND GREEN STREETS, where he is prepared to receive orders for Pocahontas and Pittsburgh Coal at the lowest market price. Offices also on the west side of Third street, between Market and Jefferson, and Fulton, between Preston and Floyd streets. (415 1/2 j&b) JOS. KOHL.

HOW IS IT EVERYBODY? HOW IS IT? EVERYBODY knows it. Some months ago the different hanging names gotten up by artists to deceive the public attracted considerable attention, but now they have ascertained how easily it is to be humbugged even by a name, as all other pictures made on glass in Louisville except at Troxell's gallery are not heretofore sealed, not so beautiful, and liable to fade. Citizens and strangers are particularly invited to call before going elsewhere. Instructions given in art for \$30. Also, rights for sale and operation at Kentucky. Main st., between Second and Third, 410 1/2 j&b over Honne's Printing Telegraph Office.

COAL! COAL! THE subscriber, thankful for the business heretofore extended to him by his friends and the public generally, respectfully informs them that he has just opened a Coal Yard and Office on the corner of Fifth and Green streets, where by strict attention and punctuality, he still hopes to receive a large share of public patronage. He always on hand a large assortment of Pittsburgh and Allegheny Coal, that is warranted to be what it is represented. He also keeps the best Pittsburgh Nut Coal, delivered to any part of the city for 5 cents per bushel, used by some of the first families, none better for the purpose. Also, an office on Market street, between Sixth and Seventh. 122 1/2 j&b E. F. LEZEL.

VOGT & KLING, MANUFACTURING JEWELERS and Wholesale Dealers in Watches, Clocks, and fine Jewelry, at Eastern Prices, No. 72 Third street, near Market, Louisville, Kentucky. WALKER'S EXCHANGE. THE undersigned, having sold his Exchange and Restaurant Hotel to Messrs. Cawein & Kohlrepp, takes this opportunity to return thanks to his friends and the public for the generous support extended to his establishment for the last twenty years, and would recommend his successors as being worthy of their patronage. Respectfully, W. H. WALKER, oct 1 j&b

HAVING purchased from W. H. Walker the above popular establishment, we solicit a share of that patronage so liberally extended to our predecessor. We will conduct the business in its original liberal style and elegance, under the firm of oct 1 j&b JOHN CAWEIN & CO.

REMOVAL. WE have removed our FINISHING and PIANO WARE-ROOMS to the corner of Main and Sixth streets, Reynolds's new block. Entrance on Main street, also on Sixth, in rear of same. Factory corner of Fourteenth and Main streets. 424 1/2 j&b PETERS, CRAGG, & CO.

PETERS, CRAGG, & CO., PIANO-FORTE MANUFACTURERS. NOW enabled to turn out from ten to twelve Pianos per week. We would respectfully inform our wholesale and retail purchasers that we hope for the future to be able to supply the increased demand for our instruments. As regards the merits of our Pianos we would respectfully refer to the fact, for the last five years, we have received the highest awards when placed in competition with the Premium Pianos of New York and Boston. Our finishing and Piano Ware-rooms corner of Main and Sixth streets. Factory corner of Fourteenth and Main streets. 424 1/2 j&b PETERS, CRAGG, & CO.

POLICE PROCEEDINGS.—Wednesday, February 11. Charles Watson, an unfortunate victim of dissipation and vagrancy, was charged with having stolen, at Lyons's boarding-house, on the wharf, near Sixth street, a purse of money containing \$35, the property of Francis Kinney, an Irishman from Ironton, Ohio. The money was found by officer Bligh in the possession of the accused. In order that he might procure witnesses the case was continued until tomorrow. Watson is already under bail on a charge of petit larceny.

James Brown and Miles West, on the 6th of February, crossed the Clay street bridge in a buggy at a faster gait than the city ordinance allows. Brown was fined and West discharged.

Judge Johnston, suffering severely from neuralgia, vacated the bench in favor of J. B. Lancaster, Esq., who took into consideration the docket cases.

Accident to the Steamer Orion.—The steamer Orion, Capt. John Ross, from Bayou Macon, with 624 bales of cotton, struck on an old wreck when landing at Bayou Sara, on Sunday, 1st inst., which stove a hole in her, causing her to leak very badly. After leaving Bayou Sara and running a few miles found the water increasing in the hold. Notwithstanding every exertion to keep it under, it was unavailing, and Capt. Ross landed her near the head of Prophet's Island. The Natchez took off 200 bales cotton and the John Simonds 300 bales, which lightened the boat so that Capt. Ross thought they would be able to keep her free.

THE AMERICAN MISSION.—We find the following in the London Globe: Mr. Benjamin Moran has been appointed by President Pierce Assistant Secretary of the American Legation at London. The office of Assistant Secretary is newly created, and is, we believe, intended to be permanent, partly in order to serve as a connecting link for the proceedings of the Legation on the change of the Minister and the Secretary. Considerable care, therefore, was exercised in selecting the first occupant for the office. Mr. Moran was private secretary to Mr. Buchanan when that gentleman was American Minister to this Court. For the last eight months he has been Vice Consul of the United States at London.

LOUISIANA INTELLIGENCE.—The Claiborne Advocate of the 20th ult. says: For the last two days we have had the most intensely cold weather we have ever experienced in this climate. Everything around is frozen as hard as a rock, and thick ice is to be found in all the ponds and creeks in this vicinity. The Franklin (parish of St. Mary) Journal says: The recent severe freeze has not done the cane crop any material injury. Should the weather hereafter continue mild, our planters will make fine crops the coming season, as the prospect is now good.

The Harrisonburg (Catahoula parish) Independent, of the 28th ult., says: A bloody conflict occurred in this place, on Monday last, between Isaac Volmer, a citizen of the town, and Elijah Short, living a few miles distant. Knives were used and both combatants were badly wounded, each having received several wounds. We have not learned the cause of the altercation.

GRAVES, THE DEFAULTING TREASURER OF MISSISSIPPI.—The Jackson Flag of the Union, of the 28th ult., says: On Monday, Gov. McLea sent in a message to the Legislature, transmitting a letter from Graves, the defaulting Treasurer, now in Canada, offering to settle his indebtedness to the State, in annual installments, if permitted to return unmolested, and his reply to the same. He submits the whole matter to the Legislature, whether, in their wisdom, they will grant the asked amnesty. The defaulting occurred in 1841, and amounts without interest to \$45,000. The whole case is a very curious one, without any precedent that we heard of. Graves is safe in Canada, efforts having already been made to arrest him under the Ashburton treaty, without success. But it is a very serious matter to annul the criminal laws; the more especially for the State to receive money (even if a return of its own) as a "consideration" therefor.

(Special Correspondence of the Picayune.) KEY WEST, Jan. 25, 1847. The British ship Crown, from New Orleans the 8th of January, with 3,491 bales cotton, 3,483 bags corn, 606 bags wheat, and 12,000 staves, bound to Liverpool, ran ashore the morning of the 19th inst., upon a shoal between the Ajax and Pacific reefs, and very soon after bilged and filled with water.

The wheat and corn are thought to be a total loss. The ship will not come off, being badly hogged, and her back broken. The ship and cargo are valued at \$250,000, and insured in England. The American ship Tennessee, from New Orleans, bound to Liverpool, with 2,400 bales cotton, 8,000 sacks grain, and 8,000 staves, had run ashore at Sandy Cay, Grand Bahama, the 18th instant, and sustained a total loss. The cargo would be saved in a damaged state.

DIED. On the morning of the 10th inst., after a long illness, DE W. DAILY, in the 47th year of his age. The funeral will take place from the residence, on Second street, between Market and Jefferson, at 10 o'clock on Thursday morning. The friends of the family are invited to attend.

BY TELEGRAPH.

Reported for the Evening Bulletin. New York, Feb. 11. There was but little additional testimony yesterday in the Burdell case. An attempt was made to show that Eckel and Mrs. Cunningham were the parties who entered a store on Friday to purchase a dagger, but the witness failed to identify them. Mrs. C. was committed to the Tombs.

PHILADELPHIA, Feb. 11. The following account is given by the Tribune of the recognition of Eckel: Mr. Eckel was placed in the bed chamber of Dr. Burdell and had the choice of any position he pleased to take among the jury, reporters, and others, who were present. He was asked to appear in his shirt sleeves, the persons standing around him appearing in like manner. This he refused to do. The others then put on their coats. Mr. Farrel was then brought into the room, and, after looking around four or five times, pausing each time more particularly at Eckel, he at last confronted him, looked at him closely, and, turning to the Coroner, said that was very like the man—he was certain he was the man.

So far then Eckel has been identified as being in the house and awake at the time the shriek of murder was heard outside. This testimony is given by a working man who appears to be honest and unsophisticated. His story was straightforward and connected, yet told with caution. He would, according to his own statement, have volunteered at an earlier stage in the examination but for the course which has been pursued by the coroner and the fear of being kept away from his family.

THE LADIES ARE BECOMING MORE and MORE aware every year of the importance of Fur Wrappings, which proves most conclusively that this is a progressive age. There is nothing that does so effectually protect them against the coldness of the winter as a well-fitted Fur, and there is nothing so comfortable, elegant, or durable. They can be had of HAYES, CRAIG, & CO. so cheap that it would be economy to purchase Fur instead of Velvet, cloth, or silk cloaks. We have still a few sets of Russian Sable, which we will dispose of so low that it would be an object to purchase them in this manner. 120 1/2 j&b

CHILDREN'S FURS—A great variety of white, gray and dark colors to be had at 120 1/2 j&b HAYES, CRAIG, & CO'S.

Furs! Furs! Furs! The ladies are respectfully invited to call and examine our large stock of Furs, which are offering them at low prices, and now is the best time to select, as the assortment is large and complete. 120 1/2 j&b PRATHER, SMITH, & CO., 455 Main st.
